Carl Jung: Wounded Healer of the Soul: An Illustrated Portrait Claire Dunne, Clare Dunne

This new biography of Carl Jung, the groundbreaking psychologist who introduced the world to the concepts of individuation, archetypes, and the collective unconscious, is less an outward chronicle of the events in his life than it is a look into the mind and heart of a 20th-century genius. Chronicling Jung's life from a childhood filled with terrifying visions to his early adulthood in which he pursued outer, material goals and, finally, to his midlife return to the realm of inner transformation, this book portrays Jung's down-to-earth, human side, with all the strengths and frailties that accompany the human condition. What emerges is a cohesive portrait of a healer whose skills arose from having first attended to the wounds in his own soul.
