Remaking China's Public Philosophy for the Twenty-first Century Jinghao Zhou

In this book, author Jinghao Zhou uses for the first time the prism of public philosophy to examine Chinese society, modernization, globalization, and democratization as a whole. Challenging conventional thinking in China studies, he examines China systematically in seven aspects: history, ideology, economy, politics, religion, education, and China's future, and does so from both Eastern and Western perspectives. The volume asserts that the remaking of China's public philosophy is they key for the nation to achieve both economic and political prosperity, making the bold argument that this remaking can contribute profoundly not only to China's development, but to international peace and development as well.
