Millions of new believers in Jesus. Thousands of new churches. Communities rallying around the Gospel. Innovative efforts to send workers into the harvest fields. A Gospel movement sweeping a nation. This isn't merely a description of what God is doing in the global south today. It is a picture of God's work in the United States during the 19th and 20th centuries. The church was flourishing. Faith was being shared. New congregations were being started. People were receiving the hope of eternal life. Can it happen again? Is it possible for the Christian church in the United States to become vibrant and relevant once more? The answer may surprise you. Looking at a uniquely American Gospel movement as a case study, Gospel DNA traces five markers that lead to a flourishing church. Hope is closer than you may think.
