Life is beautiful. There're so much in life to cherish and celebrate – the birth of a baby, a graduation, a wedding, an anniversary, Valentine's day, Mother's day and Christmas. Flowers are loved by both men and women for their beauty, purity and freshness. Flowers while a minute part of nature, play a large role in natural therapies. The study of flower therapy has shown that not only the scents, but also the colors, of our favorite blooms affect us positively. Common sense has long told people that being around flowers make people feel happy, or at least a little less dismal and drab. Now, science is starting to realize that common sense, in this case, was not entirely incorrect. There is currently no real data on how or why flowers are able to have such effects and if these effects are universal for all known flowers. Included in this book: How To Pick Perfect Flowers, Birthday Flowers, Mother's Day Flowers, Christmas Flowers, Flowers And The Zodiac, The Blossoms Of Thought and Peace and Stress Management Through The Use Of Flowers
