Lisa Miller's life didn't include the white picket fence with the happily ever after. Those things were just a fantasy in her world. In reality, Lisa had an alcohol-infused butch gay mother who cared more about her lovers than her own children, and a father who was in love with a woman who threatened to leave him every time he tried to spend quality time with his children. After the matriarch of the family died, her parents realized they didn't want the responsibility that came with parenthood. So began the chaotic afflictions of Lisa and her siblings, being put off on other people, in the hopes that someone else would raise them. Many people came into Lisa's life, but she soon realized the more she trusted and depended on them, the more they ended up leaving her to fend for herself against her selfish parents. Will Lisa ever be able to leave the drama of her family's many issues behind and not become a product of her environment or will she buckle under pressure and give up on herself? Natural Rotation takes you on a non-stop roller coaster ride filled with over the top family ups and downs that will keep you wondering why some people have children in the first place.
