A generation after a global nuclear catastrophe, Minnesota is a steamy tropical environment of lush plants and horrifically mutated insects.

Emerging torn and battered after a triple jump through the gateways, Ryan Cawdor and his band of post-holocaust survivors discover an abandoned cryonics complex a doomed fantasy begun a century before in a world far away from Deathlands. Dr. Mildred Wyeth is successfully revived from subzero suspended animation and joins the team of warrior survivalists.

In the jungles of Minnesota, the group discovers yet another freakish legacy of a world gone hideously wrong: Vikings.

In the Deathlands, the past and the future are clashing with frightening force.
