Parasite Symptoms, Cleanse & Diet: Best Parasite Cleanse For Worms In Humans Christine Gerbehy
"I have WHAT?!?!?" Yep, that was my reaction, too, lol! What most Americans don't realize is that parasites and worms aren't just for third world countries anymore. According to the Centers for Disease Control, over 33% of the world's population are infected with parasites. Over 50 MILLION children in the US have worm parasites in their systems, and HUGE numbers of them go undiagnosed.

The main problem is that many doctors don't stool test for worms. Parasitic worms in humans often go unnoticed, or undetected, because parasite symptoms can be SO vague that many people are misdiagnosed with other conditions. As they are taking meds, and nothing seems to be working, the frustration begins to mount. People have been told that the problems are "all in their head." One poor woman I met was misdiagnosed with IBS, and given meds to no avail. Her doctor wouldn't stool test her. He gives in, tests her, gets a false negative on a stool sample. He tells her she's crazy. She goes in one week later with a stool sample, with a parasitic worm stuck IN the sample, he refused to look at it! Needless to say, she went to an herbalist. He immediately had her tested again, got her set up with what to eat, what to take, and her 2 YEARS of suffering was over a month later.

Anyway, this book is an explanation of what parasites in humans are, the symptoms, and the NATURAL cures. More importantly, I explain why prescription meds are NOT the way to go to get rid of them. I'll tell you what to do to get rid of them and keep them away for good. I share some of my experiences, and how I dealt with the process. Yes, it is a nasty problem, and the cure is no party, but if you're sick and tired of feeling sick and tired (and if you have parasites, you WILL, trust me...), then you need to read this book!

You'll find the best parasite cleanse to cure parasites right here in this book. Clear, concise and straightforward, you'll be feeling better in no time!
