## Translation and Meaning. New Series, Vol. 1 (Lodz Studies in Language)

This book contains a selection of articles on new developments in translation and interpreting studies. It offers a wealth of new and innovative approaches to the didactics of translation and interpreting that may well change the way in which translators and interpreters are trained. They include such issues of current debate as assessment methods and criteria, assessment of competences, graduate employability, placements, skills labs, the perceived skills gap between training and profession, the teaching of terminology, and curriculum design. The authors are experts in their fields from renowned universities in Europe, Africa and North-America. The book will be an indispensable help for trainers and researchers, but may also be of interest to translators and interpreters.
