The five-year span from 1886-1890 marked the high point (and end point) of Vincent Van Gogh's art career, providing unparalleled paintings from a troubled genius. It was to be an age of post-Impressionistic color, form and wonderment that the art world discovered only after the master's death. Bouts of anxiety, mental illness and epilepsy may have tormented him and brought about his suicide at the age of 37. But they may also have been catalysts for an emotionality and vibrance in his art that reveals a turbulent search for grace.

This volume displays 40 Van Gogh portraits and self-portraits in a digitally restored state: their eye-popping brilliance and vitality are just as on the day Vincent Van Gogh finished them. Unless otherwise noted, they were originally oil paintings on canvas. Technical Note: These images are in color -- they render beautifully in optimized gray-scale tones for black-and-white e-book readers, but exhibit even more stunningly in full color with color readers and inside Kindle apps for color-enabled computers and portable or hand-held devices.
