Black Whispers Krystle Morrison

Evelyn and Kei lost their father to suicide four years ago. In an effort to help his half-sister recover, Kei arrives from Japan with his two friends (Alex and Takeru) to form a rock band with her. But Evelyn has already taken on the persona of Sable, the person she believes her father wanted her to be.

On stage, playing bass with the guys, she can hide all her self-disapproval and suicidal thoughts, but Evelyn becomes increasingly vulnerable. She remembers her father's words about the black holes of the world and the longing to disappear from its sight. Worried she's in danger, her three bandmates draw close to protect her from herself.

Kei willingly takes over as the head of the band and the household of friends. Though he treasures his bandmates, he hides his true feelings behind anger, manifested in arguments and stern looks. Afraid of losing his sister, he lectures and reprimands her, hoping she'll soon come to realize how much he needs her alive.

Takeru lives in his creativity, in the music and world he constructs around himself. Evelyn is attracted to his vivid imagination and instant comprehension of her poetic attempts. But in his desire to maintain an upbeat attitude, Takeru shies away from the deep darkness Evelyn begins to reveal.

Alex has never written a song. He leaves decisions and creations for the others to make. Out of all her bandmates, Evelyn trusts him the least. He's a talented liar and manipulator, but his kind words, whether or not they could be lies, are her greatest consolation.
