Get the most up-to-date SEO Blueprint for Ranking in Google for 2013 "In a nutshell this book provides some good solid SEO strategies to help you rank on Google. With every technique he is very thorough at explaining why it's important and provides great examples in applying them." -- Amazon Reviews "His insight into the subject is unparalleled. I really like the fact that throughout the book he gives you examples to follow." -- Amazon Reviews "This book is by the far the most current, up-to-date and helpful of all that I have read. I would recommend this to everyone who is trying to succeed with ranking in Google." -- Amazon Reviews "I will definitely be looking for other books by this author, as I found this book very useful. Thank you!!! Looking forward to implementing what I've learned." -- Amazon Reviews Authored by James Green, "How to Rank in Google: SEO strategies post Panda and Penguin" breaks down the steps and shows you exactly what steps you need to take to get to the top of Google. The Google landscape has changed dramatically since the release first of Google Panda and then Google Penguin. Webmasters have had to dramatically re-think their SEO strategies and become much more social animals. This book will provide you with a full recovery blueprint to get your sites ranking once more. It looks at both on-page and off-page SEO strategies and follows tried and tested techniques to use to gain you a new level of trust with Google. The book will cover such areas as: How to do effective keyword research; How to evaluate your competition; How to make your websites 'sticky'; Backlinking strategies; Social Marketing techniques; Other Marketing strategies; 'Super-affiliate' secrets; How to become an expert to both Google and your visitors; The use of new static elements to raise your trust levels with Google. The book will also reveal the recommended sites and tools that you too can use. The new methods are much more user-focused than ever before, with a new emphasis on demonstrating both quality and expertise to Google and the other search engines. This book will guide you through this minefield, without swamping you in jargon and technobabble to get you ranking to the top of Google once more!
