**Pediatrics (National Medical Series for Independent Study)** Paul H. Dworkin

This book aims to help students working and studying in paediatrics by providing a concise and comprehensive review of all the major subject areas in the field. The second edition includes coverage of new and important advances in the study of paediatric AIDS, childhood obesity and the genetics of cancer and cystic fibrosis. The book also provides a complete update on paediatric immunization along with a new chapter on paediatric critical care medicine. This is a complete and thorough revision of an important book for students of paediatrics.
