The best hope for achieving a sustainable competitive advantage in a global marketplace is by means of better understanding which customers are in the best position to experience long-term, profitable relationships for the globally oriented firm. This book offers both an academic and a practical viewpoint of the importance of CRM in a global framework. It integrates the topics of knowledge management, total quality management, and relationship marketing with the goal of explaining the benefits of CRM for internationally active firms. The authors have included six case studies which allow the reader to undertake the role of CRM consultant in a 'learning by doing' approach.
